3. Composition/Information on Ingredients

Appearance:	Green Liquid	
CAS No:	8001-54-5	Benzalkonium chloride (5-25% in a non-hazardous diluent) Surfactants, water (to 100%)

4. First Aid Measures

Ingestion:	Call a doctor. Rinse mouth then give a glass or two of water or milk. DO NOT induce vomiting unless medical assistance is delayed by 15 minutes (take care to avoid patient inhaling stomach contents). If breathing stops start mouth to nose resuscitation. Arrange urgent transport to hospital.
Eye Contact:	Wash eye with gently running water for at least 20 minutes. Do not rub the eye. Cover with sterile dressing. Seek medical attention immediately.
Skin Contact:	Quickly remove contaminated clothing. Wash skin with large quantities of water. Bathe affected areas in warm saline solution. Seek medical attention.
Inhalation:	Remove the casualty from further contamination.
Notes to Physician:	Treat symptomatically.

5. Fire-fighting Measures

Specific Hazards:	<p>Nil - not combustible. Decomposes on heating emitting toxic fumes.</p> <p>Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of decomposition.</p> <p>Electrical conductor - isolate power in case of spills.</p>
Suitable Extinguishing Media:	Water fog (or if unavailable fine water spray), foam, dry chemical powder.

6. Accidental Release Measures

Spill Cleanup Methods:	<p>Contain and absorb. Avoid contamination of waterways. Small quantities can be neutralized with soda ash provided the area is (can be) well ventilated, and washed to drain with large quantities of water.</p> <p>Electrical conductor - isolate power in case of spills.</p>
-------------------------------	--
