

UDDER MARK

Highly visible animal marker

To indicate cows that require a milk withholding period

UDDER MARK

Highly visible animal marker

To indicate cows that require a milk withholding period

DIRECTIONS FOR USE

Udder Mark is manufactured with a 360° valve for ease of application. Udder Mark is formulated to last on the udder for up to 8 days. However to ensure continued visibility it may need to be touched up periodically. Udder Mark's low irritancy formulation ensures there is no discomfort to the treated animal. **Shake can well before use.** Ensure udders are clean and dry before applying. Hold can approximately 15cm from the udder ensuring tail is clear of area to be sprayed. Apply Udder Mark RED to cows treated with antibiotics. Over spray Udder Mark GREEN when the cow has reached the recommended withholding period and milk is clear to return to the silo.

DANGER

Extremely flammable aerosol. Pressurized container: may burst if heated. Causes serious eye irritation. Suspected of damaging fertility or the unborn child. Toxic to aquatic life with long lasting effects.

PREVENTION

Keep out of reach of children. Read label before use. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, open flames, hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing spray. Beware: Deliberately sniffing or inhaling concentrated contents can be harmful or fatal. Wash exposed skin thoroughly after handling. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective clothing, gloves, and eye protection.

RESPONSE

If medical advice is needed, have product container or label at hand. Collect spillage. Call a POISON CENTRE - CHEMICAL (NZ: 0800 243 622 | AUS: 1800 127 406) or doctor if you feel unwell. If exposed or concerned: Get medical advice. IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

STORAGE & DISPOSAL

Store locked up in a well-ventilated place. Keep container tightly closed. Protect from sunlight. Do not expose to temperatures exceeding 50°C.

Propellant - Hydrocarbon

NET 339 g / 500 mL

Shake well before use
